SUMMARY

Senior Fullstack Engineer with 12+ years building production-grade React/Next.js applications and e-commerce funnels. I actively use AI tools (Claude, Cursor, GitHub Copilot) to ship features faster, reduce bug cycles, and improve conversion metrics — cutting typical implementation time by 30–40%. Experienced leading remote teams, owning features end-to-end, and collaborating with UX and product on high-traffic storefronts.

CORE SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Material UI, AngularJS

Backend: Node.js, Python, RESTful APIs, GraphQL

CMS / Infra: Contentful, Sanity, Vercel, CI/CD, Git / GitHub

AI Tooling: Claude (Anthropic), Cursor, GitHub Copilot, Prompt Engineering, AI-driven code review

E-commerce: Conversion funnel optimization, A/B testing, headless commerce architecture

EXPERIENCE

Senior Fullstack Developer · Código del Sur

May 2022 – Present · Remote

- Built and maintained a library of 40+ reusable React/Next.js components, reducing new-feature UI dev time by ~35%.
- Integrated AI-assisted code generation (GitHub Copilot + Claude) into daily workflow — accelerated sprint velocity and reduced PR review cycles.
- Architected headless Contentful & Sanity CMS integrations powering content-driven storefronts for 3 enterprise clients.
- Collaborated with UX team to improve e-commerce conversion funnels; changes contributed to a measurable lift in checkout completion rate.
- Deployed and maintained apps on Vercel with automated CI/CD pipelines; Node.js/REST API integrations with backend teams.

Fullstack Developer · Natural Tech House

Jan 2020 – May 2022 · Remote

- Developed dynamic web applications in React.js, TypeScript, and Material UI; integrated Python backend services.
- Implemented Contentful CMS workflows for content-driven e-commerce experiences across multiple clients.
- Enforced cross-device responsive design standards, cutting QA reported layout bugs by 40%.

Semi-Senior Fullstack Developer · 7 Ideas · Grupo Most

Jan 2014 – Jan 2020

- Led frontend migration from AngularJS to React.js; built and consumed REST APIs across full stack.
- Earlier: Java/Spring/Hibernate backend and mobile app development (Grupo Most, 2014–2017).
